Uniacke Trails Update

We are slowly getting our ducks in a row. Over the holidays we received our official status from NS Joint Socks as a non-profit association. That allows us to grow our membership and get our hands dirty. The government is now going to be more open to communicating with us, and our voice is going to be louder.

We soon hope to get an online payment system in place on our website so we can grow our membership. The requirement for membership is \$5, but you'll be able to pay more than that if you like to help support us.

HRM Staff Report

An HRM Staff Report has come back and is on the agenda in Halifax for Tuesday's council meeting. We feel it's important to support the Halifax portion of the project as it's momentum is going to assist with East Hants. The rail is much more valuable and useful when it connects more people and places. Ultimately we want to see it connect to other rails to trails projects that have been successful around the province, and future ones that have not yet been built.

The report going to Halifax Council can be downloaded and read from this address: <https://www.halifax.ca/sites/default/files/documents/city-hall/regional-council/180130rc1415.pdf>. It talks about a few different options for building the trail and you can read all about them.
